

World-Class

# PMO Capabilities

From Projility, a Microsoft PPM & Project Online services leader.

## Build the *Right* Things

Strategically define the portfolio

Filter ideas to ensure portfolio alignment

Prioritize and monitor progress

## Build Things *Right*

Utilize best practice standards

Build and implement the project plan

Define and track key project metrics

Outline requirements and estimate resources

Support business or end-user adoption

Maintain a detailed project schedule

Mitigate and manage risks

Evaluate project execution and customer satisfaction

What does *your* organization need to be world-class?

Hammerhead's role-based dashboards give PMOs the insight and data they need to make smart decisions.
